## CAREERS IN HEALTH CARE EVENT

What started as an idea at a lively Careers in Care meeting got the ball rolling on a highly successful event for the young people of Dundee and Angus. It was identified that young people were not aware of the variety of career pathways available in the care sector. From that, they recognised a need for a careers in health care showcase type event.

Aimed at S3 to S5 (13-17 year olds) in the region, Careers in Health Care highlighted the diverse range of health care careers and the pathways into these careers available to young people.

The venue and dates were easy decisions, Dundee Science Centre was running a Medical Marvels exhibition and Scottish Apprenticeship Week was taking place on 6 March making it the perfect opportunity to showcase all the different career pathways available in health care.

On the day, around 200 young people from across Dundee and Angus discovered an insight into the opportunities available at interactive taster sessions. The day was split into two mini events with the young people having two 25 minutes' sessions of their choice after which they had the opportunity to go around the other sessions.

Dundee and Angus College were also on-hand to offer advice and guidance on Foundation and Modern Apprenticeships.

With so many people in the centre available to offer information and guidance the young people weren't short of inspiration.

### Hands on sessions available on the day:

- Nursing Simulation
- Medicine/Dentistry
- Radiography
- Medical Physics
- Mental Health Nursing
- Occupational Therapy (Brain Injury)
- Occupational Therapy (Child Development)
- Diabetic Eye Screening
- Blood Science
- Estates
- Range of Careers in Health Care Support Workers.

***"Overall I found this afternoon very interesting and really fun"***

***"It was really educational and I would recommend it to other people"***

***"It was an excellent experience; it was just the best"***
